

APA Convention. Division 40 has assembled a diverse and exciting program at the annual APA convention in Boston, August 14-17. The keynote and invited speakers are well known leaders in neuropsychology, and will address topics including pediatric, adult, and professional issues. A panel of invited speakers will present on a wide range of topics. These include Dr. Daniel Schacter (“Constructive Memory: Episodic Simulation of Future Events”), Dr. Jennifer Vasterling (“Neuropsychological Outcomes of War-Zone Deployment”), and Dr. John DeLuca (Can We Rehabilitate Cognitive Rehabilitation After Brain Damage in Humans?) and nine other important scholars. In addition, there will be two poster sessions and several symposia and workshop sessions which will cover a range of topics. It is anticipated that CE credit will be available for most sessions in this meeting. Special sessions will also be included to honor the awarded submissions and new Fellows of the division. A tentative program schedule appears below. For any questions about the program, please contact the program chair, Dr. Michael Basso ([michael-basso@utulsa.edu](mailto:michael-basso@utulsa.edu)).
