

BROCHURE ORDER FORM

The Public Interest Advisory Committee of Division 40 has published two brochures for the consumer, **Clinical Neuropsychology: A Guide for Patients and Their Families** and **Pediatric Neuropsychology: A Guide for Parents**. The overwhelming positive response of the membership suggests a considerable potential impact on public understanding of the role of clinical neuropsychology in health care. We continue to offer the brochures and hope that they will be used for patient education, shared with referral sources, and used whenever there is an opportunity to increase public awareness of neuropsychology.

Each brochure is available in a batch of 50 copies for the price of \$10.00 (US dollars). Please mark below the number of sets of each brochure desired, multiply each number by \$10.00, and add the two lines together to reach the total amount to send.

If you would like one sample copy of each brochure, just send this form -- with no payment -- to the address below.

Clinical Neuropsychology:
A Guide for Patients and Their Families, set of 50 copiesNo. of sets _____ x \$10 = \$_____

Pediatric Neuropsychology:
A Guide for Parents, set of 50 copiesNo. of sets _____ x \$10 = \$_____

Total enclosed: \$_____
